# MEET THE MASTER-PLANNERS

The Green Quarter is a breath of fresh air for the Borough of Ealing, comprising 50% open space, including 13 acres of parkland. All this just 17 minutes from Bond Street.

Two new footbridges across the Grand Union Canal will connect The Green Quarter and Minet Country Park, a 90-acre green space that was once owned by the Minet family from 1766 - meaning that this urban oasis is right on your doorstep.

Each of the four neighbourhoods has been carefully crafted by its own dedicated architectural and landscape design team.

From the park and gardens, to the wellness spaces and the high street, The Green Quarter is a place where community thrives.

"BERKELEY IS BUILDING
SOMETHING SPECIAL HERE
AT THE GREEN QUARTER. THE
SHEER AMOUNT OF OUTDOOR
SPACE IS ABSOLUTELY UNIQUE
FOR A SITE THIS CLOSE TO
CENTRAL LONDON."

# WHY BUY BERKELEY

WE BUILD UNIQUE, SUSTAINABLE AND NATURE-RICH PLACES WHERE COMMUNITIES THRIVE. OUR ATTENTION TO DETAIL IS EVIDENT EVERYWHERE YOU LOOK.

# DESIGNED FOR LIFE

AT BERKELEY, WE ARE COMMITTED TO CREATING GREAT PLACES WHERE PEOPLE LOVE TO LIVE, WORK AND RELAX. WHERE THE HOMES ARE LIGHT-FILLED, ADAPTABLE AND FINISHED TO VERY HIGH STANDARDS.

Where carefully planned public areas enhance wellbeing and quality of life for residents and visitors. Where people feel a sense of community.

#### **CUSTOMERS DRIVE ALL OUR DECISIONS**

We achieve that by putting our customers at the heart of everything we do. First, we strive to understand what our customers want and need well-built homes, in a pleasant and safe neighbourhood, with plenty of amenities and good transport connections. Then we apply that understanding to all our planning and design decisions.

And for every new development, we challenge ourselves to go further, to improve and innovate, ensuring we satisfy the real needs of our customers in inspiring and sustainable ways.

#### **CHOICE AND DIVERSITY**

No two Berkeley customers are the same, so we aim to offer a wide choice of property locations, size and type. From Central London to major towns and cities; from market towns to rural villages, countryside to the coast - we build in locations our customers love. And whatever home you are looking for, whether that's a city penthouse, a modern studio apartment or traditional family home, you will find the perfect fit for your lifestyle.

#### **QUALITY FIRST TO LAST**

Quality is the defining characteristic of Berkeley developments, right down to the very last detail. We choose our locations, style of homes, construction practices, materials and specifications with great care. When you buy a new home from Berkeley you can be safe in the knowledge that it is built to high standards of design and quality, has low environmental impact and that you will receive a professional, efficient and helpful service from us. For extra peace of mind, all new properties come with a 10-year build warranty.

#### **GREEN LIVING**

We are committed to creating a better environment within our developments and in the areas that surround them. That's why we build on brownfield sites whenever we can, bringing new life to disused and unloved spaces. We take care to protect the natural environment and enhance biodiversity. All our homes are designed to reduce water and energy consumption, promote recycling and enable residents to choose sustainable transport options.

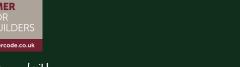

When we plan a development, we take a long-term view of how the to come. Our aim is to permanently enhance the neighbourhoods in which they are located, through sympathetic architecture or restoration, and high standards of sustainability. We don't just build for today; we build for the future too.

# ENSURING SUSTAINABILITY AT THE GREEN QUARTER

#### PEOPLE, PLANET, PROSPERITY

Sustainability is fundamental to Berkeley's ethos. In simple terms, we want to ensure the long-term health, wellbeing and prosperity of people and the planet. There are a range of ways we are managing and minimising the environmental impact of our operations and delivery of homes and communities. These are the initiatives we have implemented at The Green Quarter.

#### NATURE AND BIODIVERSITY

Parkland, trees, flowers, green roofs, ponds, hedges, gardens – these are the fundamentals of a thriving natural environment that can be enjoyed by everyone. They are all part of our commitment to net biodiversity gain on our developments. Within and around The Green Quarter, we have created natural habitats that encourage wildlife to flourish. We are working with the London Wildlife Trust and Applied Landscape Design (ALD) to engage residents in the natural landscapes that we have created.

#### WASTE AND RECYCLING

We actively encourage all residents to reduce their waste wherever possible. Recycling is integrated within the design, be it externally in the surrounding environment or as part of your kitchen, making it easier to separate and recycle waste.

#### WATER EFFICIENCY

Our homes are designed to high water efficiency standards and are fitted with dual flush WCs, and low-flow taps and showerheads which use less water without compromising convenience and comfort. We also suggest simple steps to reduce water consumption, such as not leaving taps running unnecessarily. Individual homes and apartment buildings also benefit from rainwater harvesting, which is used in gardens and landscaped areas.

#### **ENERGY EFFICIENCY**

Efficient use of electricity and gas helps lower fuel bills and reduces carbon emissions. Our homes have been designed to use less energy than a standard home. They have enhanced levels of thermal insulation, airtightness and continuous mechanical extract ventilation. All lighting is low energy and kitchen appliances are selected to deliver high levels of energy efficiency.

#### **NOISE REDUCTION**

We can't eliminate noise, but we consider the impact of it in the design of our homes. We consider external noise, such as from nearby roads, and internal noise including the transfer between rooms and floors. We incorporate measures to reduce the different types of noise wherever possible to create a quieter environment.

#### **CLEAN AIR**

It is hard to avoid polluted air, particularly in our cities. Throughout The Green Quarter we have planted trees, shrubs and flower beds to help create a cleaner air environment. Within our homes we provide mechanical ventilation to filter the internal air.

#### SUSTAINABLE TRANSPORT

The Green Quarter is within walking distance of Southall Station. Electric car charging points, a residents bike scheme, car club and fitness trails encourage the use of sustainable methods of transport, to help reduce air pollution around the development and the wider area. These active methods of transport also help encourage healthier lifestyles.

#### **STEWARDSHIP**

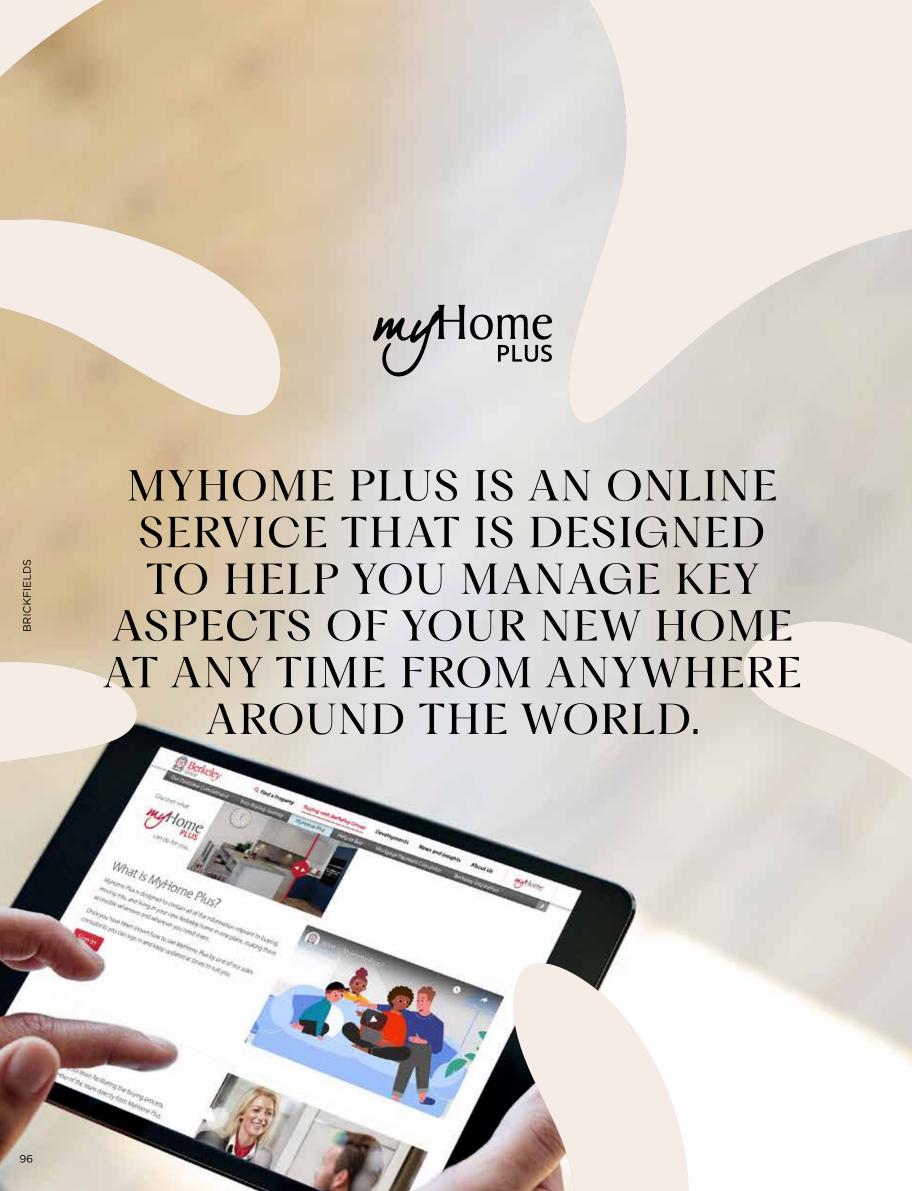

Maintaining our communal open spaces and facilities in perpetuity is an important benefit to the whole community. We work with POD Management and residents to ensure the development remains in pristine condition.

#### **FUTURE-PROOF DESIGN**

From the early stages of design, we assess how our homes will stand up to the future effects of climate change, such as how they might be impacted by higher summer temperatures, periods of drought, or more extreme rainfall. We are constantly researching how we can ensure our homes and developments are more resilient to these extremes to understand what new innovative technologies we should use in our future designs.
